

The newspapers of **New Jersey** make public notices from their printed pages available electronically in a single database for the benefit of the public. This enhances the legislative intent of public notice - keeping a free and independent public informed about activities of their government and business activities that may affect them. Importantly, Public Notices now are in one place on the web ([www.PublicNoticeAds.com](http://www.PublicNoticeAds.com)), not scattered among thousands of government web pages.
